How To Get Setup

The transition to SnowReg is easy! Our team will assist you each step of the way starting with the configuration of your club portal prototype based on your requirements. Then, if needed, representatives from your club can attend a training session which will cover how to create and manage an activity or event, and cover all the administrator and financial tools. Support is only a few clicks away with our **Knowledge Base articles**, or with our support team available via multiple contact methods you can find below.
